## Software Developer

A passionate and enthusiastic 24-year-old software engineering graduate with a strong desire to build a successful career in the software industry. Eager to secure a Software Engineer position that offers opportunities for continuous learning and professional growth. Highly adaptable, with a keen interest in exploring new technologies and staying updated with industry trends. Known for a positive, collaborative attitude and a strong commitment to delivering quality results.

---

## PROFESSIONAL EXPERIENCE

### Agro World, Sri Lanka

Aug 2024 - Nov 2024

#### Associate React Native Developer, Colombo

As a React Native Developer at Agro World, I designed and developed robust mobile applications to enhance farmers' agricultural productivity. I collaborated with cross-functional teams to implement user-friendly interfaces and integrate advanced features, ensuring a seamless user experience. My role involved optimizing app performance and maintaining high code quality to support the company's mission of transforming agriculture through technology.

- Led the development of a cross-platform mobile application,
- Improving user engagement through optimized UI/UX design.
- Developed the frontend with the backend according to the UI design Used Typescript in react native expo environment
- For the frontend Used Node JS and SQL for the backend

### AFFINITI Innovations, Sri Lanka

Feb 2023 - Aug 2023

#### Software Quality Assurance, Colombo

I worked as an Intern QA engineer helping the QA team in Manual testing and test case writing for the CRM project done by Affinity Innovations.

- Manual Testing Automation Testing Test case writing
- Test Case writing
- Executing test cases

### Sri Lanka Insurance, Sri Lanka

May 2024 - Aug 2024

#### Systems Auditing Intern, Colombo

As a trainee in the Audit Department at Life Department, I contributed to both system and branch auditing processes. I assisted in evaluating and improving the effectiveness of internal controls and compliance procedures. My responsibilities included analyzing financial data, preparing audit reports, and collaborating with team members to ensure accuracy and adherence to regulatory standards.

- Systems Auditing at Sri Lanka insurance Life
- Branch auditing

### Mahendra Comviva, Sri Lanka

Feb 2023 - Aug 2023

#### Technical Operations - Intern, Colombo

Worked as a technical operations intern at Mahendra Comviva which takes care of the Value added services section where I had to work along with the team to monitor the server availability within the time

- Bash scripting
- Linux commands
- Telecommunication structures
- Monitoring using tools such as Grafana

---
